## ONE MILLION DOLLARS

That's the Amount a Pittsburg Company Will Spend

IN EXTENDING AN ELECTRIC LINE

The Second Avenue Road to be Built Through Miles of Populous Country, and, of Course They Can't Miss Liverpool—It Is the Biggest Thing Yet, and May or May Not Be a Go.

The Pittsburg Times is responsible for the following, and while there may be some slight errors in the geographical position of some of the towns named in the article it is given for what it is worth. If you have faith believe it:

An important extension of the Second Avenue traction line has been projected, and an immense belt line about Pittsburg, taking in many adjacent towns, will be formed at a cost of \$1,000,000. It is the intention of the Second Avenue company to extend the Monongahela river line to Elizabeth from the present terminus at McKeesport, and at that point cross the Monongahela river. From Elizabeth the route will lay through Bunola, West Monongahela and Webster to Bellevue, where the Monongahela river will again be crossed. The line will then run through Fayette City, Marchand, Albany to Brownsville. The new road will come into direct competition with the Pittsburg, McKeesport and Youghiogheny railroad from Bellevue to Fayette City, and from Elizabeth to Bellevue it will compete directly with the Monongahela division of the Pennsylvania railroad. It will also compete directly with this road from Albany to Brownsville, a distance of one mile. Trouble is expected, however, in getting into Brownsville, as the Pennsylvania railroad has at present exclusive control of the only good inlet into the town. It is thought it will cross under the Pittsburg, Virginia and Charleston railroad at Albany, and run into the town along Water street.

The route out of Brownsville will extend along the old national turnpike, across the Monongahela river at the Brownsville bridge, through West Brownsville to Centerville, Beallsville to Washington, where connections will be made with the Washington traction system. This is at present controlled by T. B. Hutchinson, Francis J. Torrance, Arthur Kennedy and A. E. Townsend, who, it is understood, have abandoned the original intention of building a line into Pittsburg, and will sell their possessions to the Second Avenue company. From Washington the route will run along the national turnpike to West Alexander and on to Wheeling, where the entire street car system is at present controlled in options by Pittsburg capitalists to sell to the Second Avenue company when it is ready to enter Wheeling. This line from Brownsville will be 56 miles to Wheeling, and is designed to bring the large towns of the upper Monongahela river into closer communication with Washington, Wheeling, Bellaire and the Ohio river.

The link between Pittsburg and Wheeling, by way of the Ohio river, is already being arranged. The West End and the Coraopolis traction companies will be extended from the foot of Neville island across the Ohio river to Hays station. The line will then parallel the Fort Wayne railroad through Sewickley, Leetsdale and Economy. A charter for this route has been obtained by a company known to be in entire sympathy with the Second Avenue company, and it is understood it will be transferred to the Second Avenue company when completed.

At Freedom connection will be made with the Beaver valley system, on which the Second Avenue line recently obtained options. It will here connect with the Ohio river railway which extends to Wellsville, passing through Rochester, Beaver, Industry and East Liverpool. The electric traction system of this latter city has only recently been taken in options by the Second Avenue officials. From Wellsville the line will extend along the Ohio river to Yellow Creek and Steubenville, where the street railway of that city will be absorbed. It will then touch Mingo, Brilliant and Bridgeport and will extend to Bellaire where the Ohio river will be crossed and Wheeling entered. Negotiations have been pending for the lines in many of the cities touched and it is expected to begin work on the extension in a short time. (The securing of the options of the various lines has been kept a secret by the Second Avenue officials and they even denied that such a thing was being done, but it has been assured that the scheme will be put into execution. The new road will be 90 miles long

to Wheeling, and from that point to Washington and Brownsville the distance will be 56 miles. The distance from Pittsburg to Brownsville is 56 miles, and the total mileage of the new road will be about 200 miles. It will touch wealthy and populous towns and make speedy connections, and is considered one of the most important railway schemes proposed in Pittsburg.

HERSHEY DIDN'T KNOW.

The Agent Thought the Sweeper Was in Operation.

Agent Hershey arrived in town this morning, and was surprised beyond measure when he learned that the street sweeper was in the hands of the railroad company. He fondly imagined the city was operating the machine, and he simply came down to see how it was getting along. He at once went to the telegraph office and there found a message informing him that the company wanted a New York draft for the amount at which they held the sweeper and he was mad for he had sent them a check covering the amount. He notified them by wire of the fact, and told them to forward the bill of lading at once. The force at the freight depot had become weary with waiting, and had moved the machine from the platform ready to ship it back if it was not soon claimed. The agent thinks he will have all the troubles cleared away in a short time and that he can test the sweeper this evening or Monday.

A DIFFERENCE

Of Opinion in the Harrison Rinehart Case.

Harrison Rinehart's case at city hall promises to be one of unusual interest if it ever comes to trial. Complaint was entered yesterday against Rinehart for allowing some of his wagons to remain in the alley near his stable at Jackson square. Solicitor Clark is not so certain that the city could win easily if the case was pushed, as the city ordinance may conflict in part with the state laws. Then unless there is a general complaint against the wagons the solicitor thinks it doubtful if they can be proved a nuisance. It has been generally admitted that the wagon nuisance is a growing one, and that some move should be made against it, but all should be treated alike, and there should be a general shaking up. Rinehart is ready to have a jury trial in the case, but contrary to the statements of the local unreliable sheet, no date has been set nor any action taken by the city.

OFFENDERS ARE FEW.

Train Jumping Is Not What It Was a Month Ago.

If anybody should be able to state facts about the doings on the Cleveland and Pittsburg railroad that man is Detective Nick Shiffer, and when he said yesterday that train jumping was on the decrease he knew whereof he spoke. There are few cases of train jumping these days, and constantly few men or boys find their way to the city jail. Detective Meehan has not had a prisoner for the jail here for fully a month, and neither has Detective Shiffer. The latter states that the only trouble the trainmen have from train jumpers is between this city and Rochester. This does not reflect much credit on the Liverpool boys, but they will be caught in their law breaking sooner or later, and receive punishment sufficient to cause them to change their minds on the train jumping question.

A NEW TRIAL.

The City Favored by Judge Billingsley. McFadden's Case.

Solicitor Clark has received word from Lisbon which changes the aspect of the McFadden saloon case. In this case the verdict was reversed by Judge Billingsley and the solicitor was about to appeal it to circuit court. Judge Billingsley has, however, granted a new trial without the city being ordered to return one of costs or the fine which Mayor Gilbert imposed upon McFadden. The only reason the decision was reversed was because the continuance of the case here was by an oversight made for four days instead of three and the jury empaneled before William Matthews, the main witness, could be secured. Solicitor Clark will accept the offer of a new trial and is confident that the city will win.

Found a Check.

When entering the NEWS REVIEW office this morning C. M. Dix, circulation agent, saw a check lying on the pavement, and immediately picked it up. It was made out for J. C. Wallace by F. D. Kitchell, and called for \$70. As soon as possible it was returned to Mr. Wallace who was glad to get it.

## A BARREL AND A MATCH

Form a Deadly Combination at East End.

JOHNNIE DOBBS' BAD MISTAKE

Particulars of the Explosion Mentioned Briefly in Yesterday's News Review. The Lad's Skull Crushed By a Fragment of Wood.

A terrible accident was that which befell an East End boy yesterday afternoon, and which may yet cost him his life.

About 4 o'clock yesterday afternoon John, the 10-year-old son of Eck Dobbs, and Sam, the little son of John Young, of East End, were playing in the yard about the home of their grandmother, Mrs. Rebecca Dobbs, who resides on a farm on the hillside above East End.

Suddenly there was a terrific explosion, which shook the house and was plainly heard all over East End and a moment later the frightened people who rushed to the scene bore away the bruised and bleeding body of Johnny Dobbs.

The explosion was easily explained. There had been an empty whisky barrel in the yard. Mrs. Dobbs had purchased it of C. A. Hutcheson, of Broadway, to use as a cider barrel. It had lain in the yard for several days, and the only hole, a small one in the head of the barrel, was closed by a cork. As the barrel dried out the alcoholic gas accumulated. There was something in the barrel that rattled and young Dobbs' curiosity prompted him to investigate. He did so and struck a match, little thinking of the danger he was in. The instant the match was inserted in the hole there was a terrific explosion and Dobbs fell back bleeding and unconscious, while his companion, who had stood away, fearing bad results, was so badly frightened that he could not speak.

The explosion was such that the head of the barrel was blown into a dozen pieces and scattered about for 25 feet, while the inside of the barrel was burned until it looked like charcoal. A piece of wood about four inches long and two inches broad struck Dobbs on the forehead and cut a deep hole, while another piece cut a gash on one side of his left eye. Both eyes were closed tight and badly burned by the flame from the explosion. The blood from the wound filled the lad's stomach and he vomited regularly.

Doctor Calhoun was called and did all he could for the little sufferer, but gave the family little or no hope for the boy's recovery.

One of the strangest parts about the accident is that the barrel was found to be perfectly empty and no trace can be found of the article that rattled.

At 4 o'clock this afternoon young Dobbs was still alive, but his condition is little improved and he can hardly recover.

IN SQUIRES COURT.

A Few Cases Make Business Better For the Justices.

In the case of J. M. Mason versus William Pilgrim, Sr., for \$30 with interest, the jury yesterday afternoon rendered a verdict of \$5. The money was claimed for horse hire and dated back several years. It was in Squire Morley's court, and the jury of four was William Cartwright, Charles Berg, John Kerr and Edward Smith. M. Mackintosh versus Edward Palmer. Judgment for \$20.93 by default.

M. Mackintosh versus H. Prangley. Judgment by default for \$19.80.

M. Mackintosh versus Jessie Bailey. Judgment by default for \$61.20.

M. Mackintosh versus Thomas Lounds. Judgment by default for \$30.41.

Charles A. Goddard, an infant by his next friend John Goddard sues John Williams in Squire Rose's court for \$30.50 claimed due for work and labor. Trial on Wednesday next at 8 o'clock.

In Squire Morley's court this morning the case of E. K. Chamberlain versus J. K. Bradshaw for \$9.99 was set for trial. Bradshaw failed to appear, however, and judgment was given to Chamberlain.

A SLEEK THIEF.

He Got a Pocketbook at the Hooktown Fair.

Some smart thief with a desire to get rich made a good haul at the Hooktown fair. Miss Strauss, the daughter of Doctor Strauss, of Beaver, was standing in one of the halls when she missed her pocketbook containing \$23.75. The moment before she knew it was safe in her hand, but in an instant it was gone. The lady was in a

crowd, and there were so many people around that she could fasten the crime on no one. She waited about near the spot for some time, but was compelled to give up the search as hopeless. It is said a Liverpool man who can afford the loss was deprived of \$8 by some thief, who cut his pocket.

PRESENTED THE PETITION.

Mayor Gilbert Will See the Whole Committee.

The petition from the young people's societies was presented to Mayor Gilbert at city hall last night by U. G. King, chairman of the committee, and for the other members Mr. King promised all the help that they could give in securing evidence for conviction of those who did not observe the law. The mayor expressed a desire to see the whole committee, and a meeting was arranged. At that time steps will in all probability be taken that will lead to a strict enforcement of the Sunday laws, and a better observance of the Sabbath. The mayor has nothing to say of how this will be done.

DOC LEYDE'S CASE.

He Was Brutally Founded on Washington Street.

When Dock Leyde was walking along Washington street yesterday evening he came in contact with a crowd of young men who taunted him so that he became angry, and struck out with his cane, a thin stick that could hurt no one. Babe Rinehart was the man struck, and he lost no time in striking the old man several times in the face. His countenance was badly disfigured, and he was in a bad condition when he arose and went home. Leyde was advised by all his friends to have Rinehart arrested, but an effort was being made today to compromise the matter.

TWO GOOD OFFICES.

Liverpool Knights of St. George Were In It.

The local Sons of St. George who attended the meeting at Canton returned last night after a week of pleasure. E. J. Owen was honored with the office of grand president, and Chris Horton was made assistant messenger. When it is remembered that there are many members of the order in the state, and the candidates for state positions are always eager it can be seen that the popularity of the gentlemen mentioned is a feature.

STOLE A HORSE.

It Was a Good One and the Thief Rode Away.

James Welsh, a wealthy farmer residing near Hall Deadeney, was in town today looking for a horse that was stolen from him a few nights ago. The horse was peacefully grazing in a pasture field when the thief came along, and going to the barn placed a new saddle on the horse, and rode away. Messages were sent to all the towns nearby, and no word being received it was decided to offer a reward of \$50 for the property.

CALLED AWAY.

Roland Patterson Received a Sad Message Last Night.

Roland Patterson, of the Potters National bank, received a message last night conveying sad news. It announced the death of his father at Newton Falls, and the sorrow stricken son left on the midnight train for his home.

Deceased was aged about 70 years, and was a highly respected citizen. He had been a paralytic for several years, and it was this that caused his death.

GEORGE WEST DEAD.

He Passed Peacefully Away at Mt. Vernon Last Night.

Word reached here last night that George West, who has been very ill at Mt. Vernon, was dead. He battled bravely for a long time, but could no longer endure the strain, and passed peacefully away.

The friends here have been notified that the remains will be sent here for burial, but it could not be learned this morning whether the body would reach here today.

PAPA, BUY ME A BOWTOW.

The following special sent out from this city last night tells a story which will be appreciated:

"George Deidrick, a shirt manufacturer of this city, will remove to Pittsburg on or before Nov. 1, owing to the growth of his business. He employs about 100 men."

WARD WAS WOOLY.

Thomas Ward, the old man arrested for drunkenness on Second street yesterday, was released from jail this morning. He was fined \$5.60. His was the only case at city hall.

## LISBON HAS A PULL

For Wellsville Took Water at Its Command.

THE MONEY WAS REFUNDED

That the Boys Who Billed the Town For the Bicycle Races Paid For Breaking the Statute—Prosecutor Spoke Wrote a Warm Letter, and the Gold Came Back.

Special to NEWS REVIEW.

LISBON, Aug. 24.—If Liverpool is cute it will go after Wellsville with a sharp stick, and compel the return of what money has been collected on the bill poster ordinance. It can be done for the county seat has accomplished the task.

A few days ago the NEWS REVIEW related the facts in the arrest and punishment of a party of Lisbon boys who billed Wellsville for the bicycle races. They did not employ the bill poster, and were fined for breaking the ordinance. When they returned to Lisbon there was great indignation, and the bicycle boys raised a howl that could be heard in Wellsville. Prosecutor Spoke took up the matter, and wrote a letter that raised the municipal hair of Wellsville on end, and brought back the money to Lisbon this morning. If they remit fines for Lisbon why can not the same thing be done for Liverpool?

SET THE TIME.

The Sports For Labor Day Are Well Scattered.

The sport committee of the Labor Day celebration met last night, and decided on the time for holding the races as follows:

Boys' bicycle, 11 a. m.; ladies' blind-fold, 11:30; tug of war, 1 p. m.; half-mile foot, 1:30; horse race, 2; five-mile bicycle handicap, 2:30; 150-yard foot, 3; two-mile bicycle open, 3:30; ladies' bicycle, 4; waltz, 6:30. The committee reserves the right to reject any or all entries.

It has also been decided to present 100 cigars to the union making the finest display in the parade and give the president a new hat, while the secretary gets a fountain pen. The prettiest girl between 17 and 20 years will receive a box of candy.

The Water Is Low.

It is related that a young man from the East End went rowing with his girl the other evening when the boat caught on a rock, and he had to get out and push it free of the obstruction. He did not mind his shoes, but he rolled his trousers to his knees, and presented a grotesque appearance as he waded around in the six inches of water. He thought it was deeper.

Sued For a Bill.

Suit was yesterday entered in the court of Squire Morley by Douglass, Lamar & Co., of Baltimore, against McGhie & Moore for \$46.

Will Brice pay his campaign expenses in gold or silver?

Lisbon papers should cease their boasting of city ways or refrain from begging patronage as a pleasant country summer resort.

When the Campbells come next November we will wager dollars to sunflowers that one of them will be more or less disgraced.

The Republicans must be up and doing. Brice wants to be senator, and Brice has enough money to buy his way into the highest legislative body of the country if the people but hear his doleful pleading and accept his shining gold.

The Republicans of Ohio should stand as one man against this individual who comes from New York for the purpose of walking back with an office in his pocket. The state has for six years been the butt of every other paragraph in the country because it allowed Brice to make the purchase price before, and it now remains for every good citizen to use all his influence to defeat the plan so carefully laid again.

### THE COLONEL AND MR. CLARK.

Over in Mahoning county dwells one of the handsomest and best educated Democratic politicians of Ohio. His name is John H. Clark, and he is the attorney who was offered the nomination for congress before it came the way of Doctor Ikert, but like the thorough man of politics he is, he spurned it as he would have spurned a serpent. Last year he was the most bitter of all the foes that fought Senator Brice, and at the convention he denounced him in the strongest yet most gentlemanly language heard at the assembly. When Brice began gathering in the boys for another turn at politics he could not bring Clark to his camp, and when the Mahoning statesman went to the Springfield convention he was filled with a determination to smite the senator hip and thigh. Meantime Brice had been carefully remembering all that Clark had said, and when his old enemy arose to champion the silver cause, the senator, who was also the chairman brought into play the wickedest, coldest glare he owned, and looking Clark straight in the eye freely said: "The gentleman will please give his name and county." The insult was appreciated by every man in the convention, but Clark simply flushed a deep crimson and continued his speech. The incident is valuable because it shows that tender feeling and sweet harmony which exists in the Democratic party. It stands alone as a glowing promise of what the returns will be in November. Perhaps it would have paid Mr. Brice to forego that one brief moment of pleasure and met his opponent in a more gentlemanly manner. Who knows?

# A CHURCH IN POLITICS.

Ohio Methodists Are Uniting For Political Action.

## WILL TRY TO ELECT LEGISLATORS

Who Will Fight the Saloons — An Important Circular Issued and Signed by the Presiding Elders—Special Services To Be Held In Churches.

CLEVELAND, Aug. 24.—An important circular signed by every presiding elder of the Methodist church in Ohio, has been sent to the members of that denomination throughout the state. It calls for united political action on the part of all Methodists, in an effort to elect to the next legislature as many members as possible who will fight the saloons.

The circular states that "special services" will be called for by the elders in this connection in every Methodist church in Ohio.

### AN EXAMINER IN CHARGE.

Surprise Over the Failure of the National Bank at Franklin, O.

WASHINGTON, Aug. 24.—Comptroller Eekels has received a telegram from the cashier of the First National bank of Franklin, O., announcing that the bank has closed its doors, and asking to place some one in charge of its affairs. Bank Examiner Madison Betts was immediately instructed to proceed to Franklin and assume charge. No statement of assets and liabilities has yet reached the treasury department.

A Franklin special says: The community is astonished by the closing of the First National bank. The bank was organized in 1866, and has always had the full confidence of the community. The cause of suspension is stated to be a falling off in deposits, and the holding of discounted paper that will not mature in time to meet obligations. The president is C. M. Anderson and Cashier W. A. Boynton. It has a capital stock of \$100,000 and its last statement showed a surplus of \$20,000, and undivided profits of \$38,000. It is the general impression that depositors will be paid in full, as the assets are largely in excess of liabilities. The deposits are said to be \$100,000.

### Asks For a Change of Name.

PORTSMOUTH, O., Aug. 24.—Mrs. Mary Kugelman, whose husband committed suicide, has commenced proceedings in the common pleas court to have her former name of Schimmann restored on the grounds that she is better known by that name and that the name of Kugelman is a constant reminder of the sad death of her husband.

### Stonewall Jackson's Sister Attends.

COLUMBUS, Aug. 24.—Laura Jackson Arnold, aged 70, sister of Stonewall Jackson, and residing here, has gone to attend the reunion at Buckhannon, W. Va., of the Fifth West Virginia Union cavalry, of which she is the "mother," having been a Union woman during the war.

# EUSTIS MAKES A MOVE.

A Response Regarding Waller Expected From France In A Few Days.

WASHINGTON, Aug. 24.—Officials of the state department are gratified to learn that Ambassador Eustis has made a move in the matter of Waller, and has carried out a portion of the instructions which have been sent him. The department has felt that its efforts in this case have not been as ably seconded at Paris as they might have been, and Ambassador Eustis explains in his dispatch that the delay has been due to the absence of the minister of foreign affairs. The department believes that within a few days the French government will make some response to the requests made for the papers in the case of Mr. Waller. It is recognized at the department that the French government is not only slow, but that the French people are inclined to be nettled at the course pursued by the Americans, as shown in the resentment felt, because the commander of the Caserne had failed to salute the French at Tamatave.

It is thought that much may be made of this incident by the French in order to still further delay the settlement of the Waller case, but it is probable that the United States authorities will not allow the two things to be coupled, but will insist that the Waller case must be considered solely on its own merits. The United States has not recognized the French protectorate over Madagascar, nor has it refused recognition. Consul Wetter, who is at Tamatave, is only acting consul in one sense, as the United States has never applied for nor received an exequatur from him. In advising the commander of the Caserne not to recognize or salute the French the department presumes that Mr. Wetter has taken the right course, and knows what he is about, and will act upon that assumption until something to the contrary is learned.

### Charges Against Asylum Officials.

CHICAGO, Aug. 24.—The scandal arising from the death of Patient Pook, at the Danmington hospital, has resulted in charges being preferred against the following people: President Haley, Superintendent Morgan, Commissioner Ritter and Butcher Evans. The charges are that they have been appointed and retained employees at the Danmington asylum, who have been bribed, and for continuing contracts with men who are acknowledged by the president and superintendent to have bribed said employees.

# A SHRINKAGE IN TRADE

Volume of Business Smaller, as Is Usual In August.

## ACTIVITY AMONG INDUSTRIES.

Enormous Orders Placed Some Weeks or Months Ago Cause a Rush—Price of Wheat Falls—The Wool Sales—Fallures For the Week.

NEW YORK, Aug. 24.—R. G. Dun's Co.'s Weekly Review of Trade issued today says: The volume of business shrinks, as is natural in August, and the shrinkage seems rather larger than usual because transactions in July were somewhat inflated for that month. Some industries are doing more than ever before in August, and the prospects for fall trade is good in others, although much depends on the crops, and the outcome is less clear than speculation on either side are disposed to admit. Industrial troubles have not entirely ceased, but during the past week have become much less threatening. The price of wheat has fallen 3 1/2 cents during the week, recovering a fraction on Thursday, in spite of all efforts to hold back supplies from farms and to encourage buying. Wheat ought to go abroad freely at present prices, but Atlantic exports, flour included, have been only 1,352,602 bushels for the week, against 2,694,764 last year, and for four weeks only 4,348,632 bushels against 10,937,447 last year. Impressive stories of short crops abroad have little weight in the presence of such a record, and the abstention of foreign purchasers proves more effective than the withholding of wheat by western farmers. Naturally the 57 cent wheat of the Pacific coast still goes forward freely in place in the Atlantic supplies. Corn has also declined 1 1/2 cents, while pork and lard, with accustomed inconsistency, rise a shade or so.

It is a relief to turn to the great industries, in which the enormous orders placed some weeks or months ago cause phenomenal activity for the season. In iron, notwithstanding some weakness because the output has greatly increased, heavy purchases by the leading companies have advanced the price of Bessemer 50 cents, and a new combination has raised galvanized sheet iron to \$1.80, while combinations are being formed in wire rods and common wire, and advance in prices is expected. Other prices are unchanged, and the new orders for iron and steel products are not at present large. Sales of wool are again smaller than in 1892, and for the month thus far have been 16,847,300 pounds, of which 121,300 pounds were domestic, against 1,072,950 last year, of which 16,316,350 were domestic, and 23,361,400 in the same weeks of 1892, of which 17,105,900 were domestic. But the speculative buyers still hold prices very stiffly, and are supported by the strength in foreign markets. No marked change appears in demand for woolen goods, but there is increasing apprehension shown by agents regarding the extensive sales of foreign wools.

Failures for the week were 222 in the United States, against 234 last year, and 43 in Canada, against 33 last year.

## MEXICO DON'T WANT CUBA.

## THOSE CUBAN MEETINGS.

A Spanish Paper Wrought Up Over the New York Gatherings.

MADRID, Aug. 24.—In regard to the news that Estrada and other Cuban insurgent leaders are allowed to hold a meeting in a Forester hall "with the flag of the Cuban republic flying alongside the stars and stripes, culminating Spain, her army and Cuba, collecting money and recruiting men for rebellion," as announced in a dispatch received here, the impartial says:

"The government of America and its representatives may think as they like of this mode of understanding that neutrality to which they are bound; but, outside of them, there is no man who supports fair play who will not censure the conduct of the government of the United States. If they continue to authorize such meetings, in which Spain and her army are insulted and funds collected for expeditions against us, our course is clear and Europe shall be made acquainted with how the United States understand their international obligations. Deeds and not words, acts and not promises, are what we want. Let us sacrifice everything rather than the honor of our country."

## May Reduce the Deficit.

WASHINGTON, Aug. 24.—The expenditures of the government for the first two-thirds of the present month exceeded the receipts by \$7,009,293, but only \$1,250,000 remain to be paid on account of pensions and the Treasury officials estimate that the deficit will be reduced during the next ten days to about \$5,000,000. ## AN INSULT BY CHINA

The Massacre Investigators Are Virtually Prisoners.

## U. S. MARINES MAY BE LANDED.

Commander Newell of the U. S. Cruiser Detroit, Consults With U. S. Consul Hixson Concerning Such Action—Many China Converts Butchered.

LONDON, Aug. 24.—A special dispatch from Shanghai says that the members of the commission which recently went to Foo-Chow for Ceng-Tu in order to investigate the recent massacre of missionaries there are virtually prisoners, and that Commander Newell of the United States cruiser Detroit has gone to Cheng-Tu to consult with Mr. J. C. Hixson, the United States consul at Foo-Chow, who is the leading member of the commission, about the landing of marines for his protection and for the protection of the other members of the commission.

Many Chinese converts were butchered when the American mission outside Foo-Chow was attacked and the chapel and school wrecked by an infuriated mob early during the morning of August 22.

The Chinese officials are jubilant at the defeat of the American and British consuls to obtain an explanation into the massacres. It is also said that the delay is giving the Chinese time to prepare a defense for the prisoners.

A Washington special says: It is said here that Ku-Cheng is meant wherever Cheng-Tu is used in the London dispatch, as Cheng-Tu is the scene of the June riots, and is 1,400 miles from Foo-Chow. Naval officials, though without information themselves, are inclined to discredit the information in the dispatch. Acting Secretary McAdoo said it was observed that dispatches of this character came by way of London, while another high naval officer said that there was an evident intention on the part of Great Britain in the whole Ku-Cheng affair to get the United States government to pull chestnuts out of the fire, and pointed to the fact that there did not seem to be any anxiety on the part of Great Britain to land troops, or to be in undue haste to force an explanation.

The navy department thought that if Commander Newell had gone on any such mission the department would have been notified. It was also said that marines are scarcely ever landed at the request of a consul, especially when there is a minister in the country. However should there be trouble of the kind indicated the United States has a strong force in Asiatic waters. We have seven ships there, some of them good cruisers, our fleet including the Baltimore (flagship), the Charleston, Detroit, Yorktown, Machias, Monocacy and Concord. The last named four are not very formidable, though good fighting ships. The new cruiser Olympia will leave for the Asiatic station in a very short time, as she is now being coaled at San Francisco.

## A Nebraska Trainrobber Caught.

NORTH PLATTE, Neb., Aug. 24.—George W. Ostrander, the Lincoln county farmer arrested for complicity in the Union Pacific holdup near Brady's Island, has been fully identified by the engineer of the train. Great quantities of ammunition were found on Ostrander's person and in his house. A full-blooded Siberian bloodhound belonging to the Chicago, Milwaukee and St. Paul railway has been put on the trail of the robbers.

## Trousers a Cent a Pair.

COLUMBIA, Pa., Aug. 24.—Two retail clothing firms here have been cutting prices and engaging in a war for the past week. The climax was reached when the price of trousers dropped to 50 cents, then to 25 cents. Anyone could buy trousers for 1 cent. The workmen are taking advantage of the war and are laying in a supply for future use.

## Michigan Robbers Still Uncaptured.

GRAND RAPIDS, Aug. 24.—Although many wild rumors have been circulated all day regarding the trainrobbers they have not been sighted or surrounded as yet. One suspect has been arrested near Sparta, but the officers do not believe he is one of the men wanted. Two men who answered somewhat to the descriptions of the trainrobbers have been arrested at Allegan.

## Victims of a Horse Race.

BRADFORD, Pa., Aug. 24.—While running in a horse race at the Driving park, Simon L. McMahon of Salamanca, N. Y., fell and was fatally injured, and died an hour afterwards. Mart C. Hubbard of the same place was thrown under the cart, the wheel passing over his head and shoulders. Recovery doubtful.

## Sued For \$50,000.

CARLISLE, Pa., Aug. 24.—R. H. Hummel and Eliza B. Hummel have brought suit against the Cumberland Valley railroad through their attorney, John A. Herman, A. G. Miller, J. W. Wetzel and M. C. Herman for \$50,000. The action grew out of the obstruction of a road leading to the Hummel estate by the Cumberland Valley railroad.

## Michigan Strikers Leaving.

ISHPEMING, Mich., Aug. 24.—The striking miners and mechanics are leaving here on every train. It is estimated that between 400 and 600 men have already left the range.

## LOCAL BREVITIES.

Alfred Clayton has moved his family from this city to Wheeling.

A party of society young people will drive tomorrow to Frankfort Springs.

There are no new developments in the bridge, the company officials having nothing for publication.

William Boyce, the Pittsburg agent of the Sante Fe company, was in town yesterday looking after local business.

The East End street railway trestle has undergone needed repairs, and Superintendent Andrews believes it is good enough for Labor day, when the cars will be packed to their utmost capacity.

Hugh Maley and wife went to Summitville this morning to attend the funeral of their nephew who was killed on the railroad at Sallenville while jumping cars. The boy's parents are heart broken.

Freight traffic over the Cleveland and Pittsburg has been unusually heavy the past few days, and is still more than holding its own. Freight train No. 123 the other night consisted of seven sections.

Wellsville is having almost as much trouble obtaining a street sweeper as Liverpool. It is overdue, and has not yet come. Wellsville's sweeper has been used before, and the suspicion is abroad that it is being repaired before they deliver it.

The remains of the late Jack Everson were buried in Wellsville this afternoon, a large concourse of sorrowing friends and relatives being present. A number from this city were there. The flowers were many and beautiful, showing the high regard in which the unfortunate young man was held.

Doctor Ogden today received the announcement of the Cincinnati medical college from which he graduated 18 years ago, and the neatly printed card reminded him that in all those years he has never seen one of the merry crowd of youngsters who left the school on the same day. They are scattered all over the country.

The wind which came up the valley this morning was traveling with race horse speed, and had things all its own way for a time. Corn was blown down, and branches were blown from trees in some parts of the city. Great clouds of dust filled the streets blinding pedestrians and ruining goods in business houses. It lasted for an hour, and made a most disagreeable morning.

When the snagboat was at work blowing up obstructions in the river opposite the glass works the dynamite had a deadening effect upon the fish, and many floated dead upon the river. Crowds of people in boats picked up the dead fish expecting to find them the best, but there were few bass among them. Suckers and carp were there in abundance, but the more palatable fish were nowhere to be seen.

The river is lower at present than at any time this season, and bare spots are seen where they have not appeared for several years. There is but little water flowing into the Allegheny or Monongahela, and the streams this side of the Davis Island dam are as low as they have been for years. The question of a rise in August is answered, the river men say, and they are now pinning all their faith to September, with many sceptics among them.

The three-year-old son of John Rapp, West End, sustained a painful accident in Pittsburgh yesterday that will keep him sore in body and disturbed in mind for days to come. He was playing on a high fence when he lost his balance and fell to the ground where a pile of stone made anything but a soft spot for landing. His face was painfully crushed, and his nose broken. Mrs. Rapp brought the injured child home last night and he is getting along as well as could be expected.

Among the most delightful evening outings of the summer was the dancing party of the Columbian club at the park last night. The guests numbered 50, and the music was Wolf's best production. Among those present were a number of people from Wellsville, including Miss James and her guest, Miss Lawler, of Dennison, Miss Caughey, of Beaver, Miss Brown, of Allegheny, and Clarence Stewart, of Benvenue, were also present. The happy party returned to the city on a special car provided by Superintendent Andrews at midnight.

A farmer and his wife who have been visiting in this city from Carroll county have passed many milestones in life, and this is the largest city they have been in. Until they came here a few weeks ago they were never out of the county, and never saw a railroad, although they have lived within 20 miles of one. They never before looked upon a river until they saw the Ohio at Yellow creek, and did not know a trolley car by sight. They are intelligent and educated, and have read much, but their practical experience in cities has been small.

**Our Black Dress Goods Sale**

Will begin Saturday, Aug. 24, and continue one week. We do not wish you to consider this a sale of little consequence. If you are a money saver you will at least investigate. We have received within the past week enough of dress goods to scare the most of storekeepers to death. The condition of the market is such that we own these goods at from 15 to 20 per cent less than they can be bought for today. We propose giving this to our customers. Notice below the prices we put on them. You will lose nothing and may save you some money.

**25c All Wool Serges,** and when we say ALL WOOL we mean it. The price may seem low to you but we have the goods to back it up, in black and colors.

**50c Storm and Fine Serges.**

You can buy them in any store, but the goods we are putting in this sale are far above the average 50c ones. In fact they are the very same goods that we sold freely last season at 75c.

**75c Black Dress Goods.**

Serges, Henriettas, Mohair Mixtures and Sicilians, fine enough for the best of dresses. You would have considered them cheap at \$1.00 last season.

**\$1.00 Per Yard**

Buy your choice of all the finest things we have in plain black goods. We are in shape to save you money on Dress Goods in this sale. We want your trade, and if you have your own interests at stake you will visit our store during this sale, beginning Saturday morning and continuing one week.

## Caution about the Use and Selection of Spectacles

"Persons having normal vision will be able to read this notice at a distance of 14 inches from the eyes with ease and comfort; also will be able to read it with ease and comfort. If unable to do so, your eyes are defective and should have immediate attention. When the eyes become tired from reading or working, or if the letters are blurred and the paper appears to be a new fashion, that glasses are needed. The lenses sold in the cheap grade are of no value, and may do more harm than good. Consult with a new fashion of the power lenses will result in positive injury from the constant strain upon the power of accommodation to supply the defects in the glass."

## WE DON'T GET THE CUP

The Ceramic Cyclers Are Sadly  
Disappointed.

### SOME VERY PASTY DIAMONDS

The Referee Changed His Decision, and  
Gave the Trophy to Westmoreland—Irons  
May Sue For the Prize He Won As Others  
Are Doing.

After long waiting and no little cor-  
respondence it has been decided that  
the C. C. C. C. will not get the silver  
cup won by Trappe, Hale and Irons at  
the Ellsworth races in Pittsburgh.

When T. F. Miller, the referee, de-  
cided that the man who dropped  
back a quarter of a mile was out of  
the race he was wrong, and a glance  
through the rules has convinced him  
of his error. Westmoreland objected  
to the decision, and he was compelled  
to reinstate the rider he had thrown  
out. As he had just 11 points and  
the other man still in  
the race had been piling up  
points until he had reached 29, the  
judge added the two giving them 40  
points and the race. Our boys made  
34, and doubtless would have run  
the number higher had they known the  
points they imagined thrown  
out would be considered.  
The referee has a right to decide as  
he did, but he has no right to consider  
another protest entered by the Beaver  
Valley cyclers regarding the entry of  
our team for they had no authority to  
lodge a remonstrance, and the Ells-  
worth club should have known these  
things before they took the entry fees.  
That is why they have entry blanks.

Another phase of the matter which  
rouses the ire of the team is the prize  
won by Irons for what splendid work  
he did. It was advertised far and  
wide as a diamond of value, but when  
the thing was investigated it was  
found to be little better than paste.  
In fact, all the diamonds given at the  
meet were valued at about \$9  
a dozen. Irons has been advised  
by parties in Pittsburgh to  
sue for the advertised amount  
of the prize, and will likely do so.  
The meet was so shaky in this respect  
that the club giving it are roundly de-  
nounced here and in Pittsburgh.

### PORTER WON.

It Was a Good Race Over a Good  
Road.

The road race of the Audubon club  
from Smith's Ferry last evening to  
this city was a splendid contest, and  
when it was over John Porter had the  
medal and his choice of the prizes.

Porter, McKinney, Porter and Ris-  
inger started from the scratch at  
Smith's Ferry in a bunch, and got  
away in a hurry. They rode hard for  
a few hundred feet together, and then  
John Porter took the lead keeping it  
until the East End was reached when  
Risinger began to push him hard. It  
was a pretty race through the streets,  
and when Porter reached the curve  
near the river Risinger was so close  
that he prepared to pass him. Both  
wanted the same track, and  
there was a spill, Risinger  
falling hard. His wheel  
was smashed, and he had to look to a  
bystander for another, but Porter  
quickly gathered himself together,  
and spinning down the road after  
Bobby Jewell, who was pacing them,  
passed up Broadway amid the plaudits  
of the multitude, and won in 17:38.

Meantime McKinney had been chas-  
ing Risinger, and when they turned  
into Broadway they were only a  
short distance apart. As Risinger  
got off his wheel at Third street to  
walk the hill McKinney gained  
and they were close together when  
they started up the steep grade.  
Each made a mighty spurt on foot, but  
Risinger was in the lead, and mount-  
ing on top of the hill won out with a  
few seconds to spare. A large crowd  
saw the finish, and cheered on the  
riders. Tom Porter finding that he  
could not win loafed along the way,  
but finished in good time.

John Porter's time of 17:08 was fol-  
lowed by Risinger's 18:41; McKin-  
ney, 18:05, and Tom Porter, 20:03.  
The distance was estimated at five  
miles. The winner took a medal,  
which he must defend again, and a  
carpet sweeper. Risinger got the  
smoking set, and Tom Porter got  
a bottle of catchup by way of  
a joke. Tom struck a stone near  
the Dry Run school house, his handle  
bars turned and he ran clear over the  
fence and into the school house, turned  
a somersault and lit on his feet. The  
winner lost a pedal and after he tied  
it on with a string hunted about in  
the dust for a toe clip.

Another race may be looked for  
some.

### THEY KICKED,

And Would Not Play Ball With the East  
End Gym.

The game between the East End  
Gym and the Empire team ended  
in the fourth inning yesterday because  
the Empire nine kicked against the  
kind of ball in use. The ball was of  
the proper kind, but the score was 9  
to 7 in favor of the Empire team, and  
they wanted an excuse to quit. The

management of the East End club  
had ordered supper for the visitors,  
but promptly countermanded it. This  
is the second game the East End club  
has played with the Empire nine, and  
will likely be the last, although they  
had arranged for a series of three  
games to decide the ability of the re-  
spective nines.

### NO LIQUOR ON BOARD.

Captain Anshutz Has Strict Regulations  
For the Louisville Trip.

Captain Anshutz, who proposes to  
take the Grand Army boys to the  
Louisville encampment next month,  
will not allow a drop of liquor on the  
boat, nor will he permit one question-  
able character to join the happy  
party. In his long experience on the  
river the captain has al-  
ways carried a full crew  
of competent officers and men, and  
he is not going to break that record  
now. He always keeps his word, and  
when he says there will be  
no liquor or questionable charac-  
ters he means every word of it.  
Already he has received inquiries from  
Liverpool people, and expects to have  
some of them join his party. The  
trip by the river is so much more en-  
joyable than by rail that he thinks  
many will join him. The appoint-  
ments of the boat are perfect, and the  
genial captain insures all who ride  
with him a good time.

Good health is a precious boon and

### A FIGHT WITH BANDITS.

One Officer and One Robber Shot—The  
Gang Surrounded.

ARMORE, I. T., Aug. 24.—An en-  
counter between the noted Christian  
gang who broke jail at Oklahoma City,  
and have since added to their number  
a posse of United States marshals, in  
charge of Ben Goode, has occurred  
six miles west of Purcell, in which  
United States Marshal J. Hocker was  
shot and mortally wounded, and Bob  
Christian shot.

How serious his injuries are cannot  
be determined, as when his horse was  
cut down from under him and he was  
shot by Deputy Hocker, his brother,  
Bill Christian, rode out of a thicket and  
placing his wounded brother on his  
horse ahead of him, the two made good  
time and escaped. Hocker was shot by  
Bill Christian. After Hocker received  
his wounds the other marshals turned  
their attention to the wounded officers  
and the outlaws saw a chance and they  
at once broke cover and fled. A strong  
posse now surrounds the gang near  
Purcell.

### In Trouble Over Another Juror.

SAN FRANCISCO, Aug. 24.—The pro-  
secution in the Durrant case is in fresh  
trouble over the business connections of  
juror Nathan Crocker, who owns a  
rock quarry and has been endeavoring  
to induce the board of supervisors to  
use material for concrete work from  
his quarry. Attorney Dickinson of  
Durrant's counsel is also attorney for  
the majority in the board of super-  
visors, and the prosecution fears this will  
detract from Crocker's usefulness as a  
juror.

### The A. R. U. After Huntington.

SAN FRANCISCO, Aug. 24.—According  
to the A. R. U. members and their  
friends, C. P. Huntington will be ar-  
rested should he come here. It is con-  
tended that the charge against  
the president of the Southern  
Pacific was dismissed at the instance of  
United States District Attorney Foote,  
and was not done by the United States  
District Judge Morrow. Hence, it is  
held that Huntington can still be ar-  
rested here.

### Threw Satchels Out the Window.

ROCHESTER, Aug. 24.—A man giving  
the name of Henry Lindner, of Chi-  
cago, bound for New York, apparently  
about 30 years of age, has been taken in

Shore train and turned over to the po-  
lice here. He threw his pocketbook  
and satchel through a car window and  
grabbed the satchels of several other  
passengers and treated them in a like  
manner.

Port Royal, S. C., has reported to the

figures prove correct.

## ONE MILLION DOLLARS

That's the Amount a Pittsburgh Company Will Spend

IN EXTENDING AN ELECTRIC LINE

The Second Avenue Road to be Built Through Miles of Populous Country, and, of Course They Can't Miss Liverpool—It Is the Biggest Thing Yet, and May or May Not Be a Go.

The Pittsburgh Times is responsible for the following, and while there may be some slight errors in the geographical position of some of the towns named in the article it is given for what it is worth. If you have faith believe it:

An important extension of the Second Avenue traction line has been projected, and an immense belt line about Pittsburgh, taking in many adjacent towns, will be formed at a cost of \$1,000,000. It is the intention of the Second Avenue company to extend the Monongahela river line to Elizabeth from the present terminus at McKeesport, and at that point cross the Monongahela river. From Elizabeth the route will lay through Bunola, West Monongahela and Webster to Bellevue, where the Monongahela river will again be crossed. The line will then run through Fayette City, Marchand, Albany to Brownsville. The new road will come into direct competition with the Pittsburgh, McKeesport and Youngstown railroad from Bellevue to Fayette City, and from Elizabeth to Bellevue it will compete directly with the Monongahela division of the Pennsylvania railroad. It will also compete directly with this road from Albany to Brownsville, a distance of one mile. Trouble is expected, however, in getting into Brownsville, as the Pennsylvania railroad has at present exclusive control of the only good inlet into the town. It is thought it will cross under the Pittsburgh, Virginia and Charleston railroad at Albany, and run into the town along Water street.

The route out of Brownsville will extend along the old national turnpike, across the Monongahela river at the Brownsville bridge, through West Brownsville to Centerville, Bealsville to Washington, where connections will be made with the Washington traction system. This is at present controlled by T. B. Hutchinson, Francis J. Torrance, Arthur Kennedy and A. E. Townsend, who, it is understood, have abandoned the original intention of building a line into Pittsburgh, and will sell their possessions to the Second Avenue company. From Washington the route will run along the national turnpike to West Alexander and on to Wheeling, where the entire street car system is at present controlled in options by Pittsburgh capitalists to sell to the Second Avenue company when it is ready to enter Wheeling. This line from Brownsville will be but 56 miles to Wheeling, and is designed to bring the large towns of the upper Monongahela river into closer communication with Washington, Wheeling, Bellaire and the Ohio river.

The link between Pittsburgh and Wheeling, by way of the Ohio river, is already being arranged. The West End and the Corapolis traction companies will be extended from the foot of Neville Island across the Ohio river to Hays station. The line will then parallel the Fort Wayne railroad to Freedom, after passing through Sewickley, Leetsdale and Economy. A charter for this route has been obtained by a company known to be in entire sympathy with the Second Avenue company, and it is understood it will be transferred to the Second Avenue company when completed.

At Freedom connection will be made with the Beaver valley system, on which the Second Avenue line recently obtained options. It will here connect with the Ohio river railway which extends to Wellsville, passing through Rochester, Beaver, Industry and East Liverpool. The electric traction system of this latter city has only recently been taken in options by the Second Avenue officials. From Wellsville the line will extend along the Ohio river to Yellow Creek and Steubenville, where the street railway of that city will be absorbed. It will then touch Mingo, Brilliant and Bridgeport and will extend to Bellaire where the Ohio river will be crossed and Wheeling entered. Negotiations have been pending for the lines in many of the cities touched and it is expected to begin work on the extension in a short time. The securing of the options of the various lines has been kept a secret by the Second Avenue officials and they even denied that such a thing was being done, but it has been ascertained that the scheme will be put into execution. The new road will be 90 miles long

to Wheeling, and from that point to Washington and Brownsville the distance will be 56 miles. The distance from Pittsburgh to Brownsville is 56 miles, and the total mileage of the new road will be about 200 miles. It will touch wealthy and populous towns and make speedy connections, and is considered one of the most important railway schemes proposed in Pittsburgh.

HERSHEY DIDN'T KNOW.

The Agent Thought the Sweeper Was in Operation.

Agent Hershey arrived in town this morning, and was surprised beyond measure when he learned that the street sweeper was in the hands of the railroad company. He fondly imagined the city was operating the machine, and he simply came down to see how it was getting along. He at once went to the telegraph office and there found a message informing him that the company wanted a New York draft for the amount at which they had the sweeper and he was mad for he had sent them a check covering the amount. He notified them by wire of the fact, and told them to forward the bill of lading at once. The force at the freight depot had become weary with waiting, and had moved the machine from the platform ready to ship it back if it was not soon claimed. The agent thinks he will have all the troubles cleared away in a short time and that he can test the sweeper this evening or Monday.

A DIFFERENCE

Of Opinion in the Harrison Rinehart Case.

Harrison Rinehart's case at city hall promises to be one of unusual interest if it ever comes to trial. Complaint was entered yesterday against Rinehart for allowing some of his wagons to remain in the alley near his stable at Jackson square. Solicitor Clark is not so certain that the city could win easily if the case was pushed, as the city ordinance may conflict in part with the state laws. Then unless there is a general complaint against the wagons the solicitor thinks it doubtful if they can be proved a nuisance. It has been generally admitted that the wagon nuisance is a growing one, and that some move should be made against it, but all should be treated alike, and there should be a general shaking up. Rinehart is ready to have a jury trial in the case, but contrary to the statements of the local unreliable sheet, no date has been set nor any action taken by the city.

OFFENDERS ARE FEW.

Train Jumping Is Not What It Was a Month Ago.

If anybody should be able to state facts about the doings on the Cleveland and Pittsburgh railroad that man is Detective Nick Shiffer, and when he said yesterday that train jumping was on the decrease he knew whereof he spoke. There are few cases of train jumping these days, and constantly few men or boys find their way to the city jail. Detective Meehan has not had a prisoner for the jail here for fully a month, and neither has Detective Shiffer. The latter states that the only trouble the trainmen have from train jumpers is between this city and Rochester. This does not reflect much credit on the Liverpool boys, but they will be caught in their law breaking sooner or later, and receive punishment sufficient to cause them to change their minds on the train jumping question.

A NEW TRIAL.

The City Favored by Judge Billingsley, McFadden's Case.

Solicitor Clark has received word from Lisbon which changes the aspect of the McFadden saloon case. In this case the verdict was reversed by Judge Billingsley and the solicitor was about to appeal it to circuit court. Judge Billingsley has, however, granted a new trial without the city being ordered to return one cent of costs or the fine which Mayor Gilbert imposed upon McFadden. The only reason the decision was reversed was because the continuance of the case here was by an oversight made for four days instead of three and the jury empaneled before William Matthews, the main witness, could be secured. Solicitor Clark will accept the offer of a new trial and is confident that the city will win.

Found a Check.

When entering the News Review office this morning C. M. Dix, circulation agent, saw a check lying on the pavement, and immediately picked it up. It was made out for J. C. Wallace by F. D. Kitchell, and called for \$70. As soon as possible it was returned to Mr. Wallace who was glad to get it.

## A BARREL AND A MATCH

Form a Deadly Combination at East End.

JOHNNIE DOBBS' BAD MISTAKE

Particulars of the Explosion Mentioned Briefly in Yesterday's News Review. The Lad's Skull Crushed By a Fragment of Wood.

A terrible accident was that which befell an East End boy yesterday afternoon, and which may yet cost him his life.

About 4 o'clock yesterday afternoon John, the 10-year-old son of Eck Dobbs, and Sam, the little son of John Young, of East End, were playing in the yard about the home of their grandmother, Mrs. Rebecca Dobbs, who resides on a farm on the hillside above East End.

Suddenly there was a terrific explosion, which shook the house and was plainly heard all over East End and a moment later the frightened people who rushed to the scene bore away the bruised and bleeding body of Johnny Dobbs.

The explosion was easily explained. There had been an empty whisky barrel in the yard. Mrs. Dobbs had purchased it of C. A. Hutcheson, of Broadway, to use as a cider barrel. It had lain in the yard for several days, and the only hole, a small one in the head of the barrel, was closed by a cork. As the barrel dried out the alcoholic gas accumulated. There was something in the barrel that rattled and young Dobbs' curiosity prompted him to investigate. He did so and struck a match, little thinking of the danger he was in. The instant the match was inserted in the hole there was a terrific explosion and Dobbs fell back bleeding and unconscious, while his companion, who had stood away, fearing bad results, was so badly frightened that he could not speak.

The explosion was such that the head of the barrel was blown into a dozen pieces and scattered about for 25 feet, while the inside of the barrel was burned until it looked like charcoal. A piece of wood about four inches long and two inches broad struck Dobbs on the forehead and cut a deep hole, while another piece cut a gash on one side of his left eye. Both eyes were closed tight and badly burned by the flame from the explosion. The blood from the wound filled the lad's stomach and he vomited regularly.

Doctor Calhoun was called and did all he could for the little sufferer, but gave the family little or no hope for the boy's recovery.

One of the strangest parts about the accident is that the barrel was found to be perfectly empty and no trace can be found of the article that rattled.

At 4 o'clock this afternoon young Dobbs was still alive, but his condition is little improved and he can hardly recover.

IN SQUIRES COURT.

A Few Cases Make Business Better For the Justices.

In the case of J. M. Mason versus William Pilgrim, Sr., for \$30 with interest, the jury yesterday afternoon rendered a verdict of \$5. The money was claimed for horse hire and dated back several years. It was in Squire Morley's court, and the jury of four was William Cartwright, Charles Berg, John Kerr and Edward Smith.

M. Mackintosh versus Edward Palmer. Judgment for \$20.93 by default.

M. Mackintosh versus H. Brangley. Judgment by default for \$19.80.

M. Mackintosh versus Jessie Bailey. Judgment by default for \$61.20.

M. Mackintosh versus Thomas Lounds. Judgment by default for \$30.41.

Charles A. Goddard, an infant by his next friend John Goddard sues John Williams in Squire Rose's court for \$20.50 claimed due for work and labor. Trial on Wednesday next at 8 o'clock.

In Squire Morley's court this morning the case of E. K. Chamberlain versus J. K. Bradshaw for \$9.99 was set for trial. Bradshaw failed to appear, however, and judgment was given to Chamberlain.

A SLEEK THIEF.

He Got a Pocketbook at the Hooktown Fair.

Some smart thief with a desire to get rich made a good haul at the Hooktown fair. Miss Strauss, the daughter of Doctor Strauss, of Beaver, was standing in one of the halls when she missed her pocketbook containing \$23.75. The moment before she knew it was safe in her hand, but in an instant it was gone. The lady was in a

crowd, and there were so many people around that she could fasten the crime on no one. She waited about near the spot for some time, but was compelled to give up the search as hopeless. It is said a Liverpool man who can afford the loss was deprived of \$8 by some thief, who cut his pocket.

PRESENTED THE PETITION.

Mayor Gilbert Will See the Whole Committee.

The petition from the young people's societies was presented to Mayor Gilbert at city hall last night by U. G. King, chairman of the committee, and for the other members Mr. King promised all the help that they could give in securing evidence for conviction of those who did not observe the law. The mayor expressed a desire to see the whole committee, and a meeting was arranged. At that time steps will be taken to lead to a strict enforcement of the Sunday laws, and a better observance of the Sabbath. The mayor has nothing to say of how this will be done.

DOC LEYDE'S CASE.

He Was Brutally Pounded on Washington Street.

When Dock Leyde was walking along Washington street yesterday evening he came in contact with a crowd of young men who taunted him so that he became angry, and struck out with his cane, a thin stick that could hurt no one. Babe Rinehart was the man struck, and he lost no time in striking the old man several times in the face. His countenance was badly disfigured, and he was in a bad condition when he arose and went home. Leyde was advised by all his friends to have Rinehart arrested, but an effort was being made today to compromise the matter.

TWO GOOD OFFICES.

Liverpool Knights of St. George Were in It.

The local Sons of St. George who attended the meeting at Canton returned last night after a week of pleasure. E. J. Owen was honored with the office of grand president, and Chris Horton was made assistant messenger. When it is remembered that there are many members of the order in the state, and the candidates for state positions are always eager it can be seen that the popularity of the gentlemen mentioned is a feature.

STOLE A HORSE.

It Was a Good One and the Thief Rode Away.

James Welsh, a wealthy farmer residing near Hall Deadening, was in town today looking for a horse that was stolen from him a few nights ago. The horse was peacefully grazing in a pasture field when the thief came along, and going to the barn placed a new saddle on the horse, and rode away. Messages were sent to all the town nearby, and no word being received it was decided to offer a reward of \$50 for the property.

CALLED AWAY.

Roland Patterson Received a Sad Message Last Night.

Roland Patterson, of the Potters National bank, received a message last night conveying sad news. It announced the death of his father at Newton Falls, and the sorrow stricken son left on the midnight train for his home.

Deceased was aged about 70 years, and was a highly respected citizen. He had been a paralytic for several years, and it was this that caused his death.

GEORGE WEST DEAD.

He Passed Peacefully Away at Mt. Vernon Last Night.

Word reached here last night that George West, who has been very ill at Mt. Vernon, was dead. He battled bravely for a long time, but could no longer endure the strain, and passed peacefully away.

The friends here have been notified that the remains will be sent here for burial, but it could not be learned this morning whether the body would reach here today.

Papa, Buy Me a Bowwow.

The following special sent out from this city last night tells a story which will be appreciated: "George Deldrick, a shirt manufacturer of this city, will remove to Pittsburgh on or before Nov. 1, owing to the growth of his business. He employs about 100 men."

Ward Was Wooley.

Thomas Ward, the old man arrested for drunkenness on Second street yesterday, was released from jail this morning. He was fined \$5.00. His was the only case at city hall.

## LISBON HAS A PULL

For Wellsville Took Water at Its Command.

THE MONEY WAS REFUNDED

That the Boys Who Billed the Town For the Bicycle Races Paid For Breaking the Statute—Prosecutor Spoke Wrote a Warm Letter, and the Gold Came Back.

Special to News Review.

LISBON, Aug. 24.—If Liverpool is cute it will go after Wellsville with a sharp stick, and compel the return of what money has been collected on the bill poster ordinance. It can be done for the county seat has accomplished the task.

A few days ago the News Review related the facts in the arrest and punishment of a party of Lisbon boys who billed Wellsville for the bicycle races. They did not employ the bill poster, and were fined for breaking the ordinance. When they returned to Lisbon there was great indignation, and the bicycle boys raised a howl that could be heard in Wellsville. Prosecutor Spoke took up the matter, and wrote a letter that raised the municipal hair of Wellsville on end, and brought back the money to Lisbon this morning. If they remit fines for Lisbon why can not the same thing be done for Liverpool?

SET THE TIME.

The Sports For Labor Day Are Well Scattered.

The sport committee of the Labor Day celebration met last night, and decided on the time for holding the races as follows:

Boys' bicycle, 11 a. m.; ladies' blindfold, 11:30; tug of war, 1 p. m.; half-mile foot, 1:30; horse race, 2; five-mile bicycle handicap, 2:30; 150-yard foot, 3; two-mile bicycle open, 3:30; ladies' bicycle, 4; waltz, 6:30. The committee reserves the right to reject any or all entries.

It has also been decided to present 100 cigars to the union making the finest display in the parade and give the president a new hat, while the secretary gets a fountain pen. The prettiest girl between 17 and 20 years will receive a box of candy.

The Water Is Low.

It is related that a young man from the East End went rowing with his girl the other evening when the boat caught on a rock, and he had to get out and push it free of the obstruction. He did not mind his shoes, but he rolled his trousers to his knees, and presented a grotesque appearance as he waded around in the six inches of water. He thought it was deeper.

Sued For a Bill.

Suit was yesterday entered in the court of Squire Morley by Douglass, Lamar & Co., of Baltimore, against McGhie & Moore for \$46.

He Was Drunk.

The patrol was called to the ice breakers this afternoon and found J. W. Patterson drunk. He was put in jail.

Will Brice pay his campaign expenses in gold or silver?

Lisbon papers should cease their boasting of city ways or refrain from begging patronage as a pleasant country summer resort.

When the Campbells come next November we will wager dollars to snufflers that one of them will be more or less disgraced.

The Republicans must be up and doing. Brice wants to be senator, and Brice has enough money to buy his way into the highest legislative body of the country if the people but hear his doleful pleading and accept his shining gold.

The Republicans of Ohio should stand as one man against this individual who comes from New York for the purpose of walking back with an office in his pocket. The state has for six years been the butt of every other paragraph in the country because it allowed Brice to make the purchase price before, and it now remains for every good citizen to use all his influence to defeat the plan so carefully laid again.

### THE COLONEL AND MR. CLARK.

Over in Mahoning county dwells one of the handsomest and best educated Democratic politicians of Ohio. His name is John H. Clark, and he is the attorney who was offered the nomination for congress before it came the way of Doctor Ikirt, but like the thorough man of politics he is, as spurned it as he would have spurned a serpent. Last year he was the most bitter of all the foes that fought Senator Brice, and at the convention he denounced him in the strongest yet most gentlemanly language heard at the assembly. When Brice began gathering in the boys for another turn at politics he could not bring Clark to his camp, and when the Mahoning statesman went to the Springfield convention he was filled with a determination to smite the senator hip and thigh. Meantime Brice had been carefully remembering all that Clark had said, and when his old enemy arose to champion the silver cause, the senator, who was also the chairman brought into play the wickedest, coldest glare he owned, and looking Clark straight in the eye freezingly said: "The gentleman will please give his name and county." The insult was appreciated by every man in the convention, but Clark simply flushed a deep crimson and continued his speech. The incident is valuable because it shows that tender feeling and sweet harmony which exists in the Democratic party. It stands alone as a glowing promise of what the returns will be in November. Perhaps it would have paid Mr. Brice to forego that one brief moment of pleasure and met his opponent in a more gentlemanly manner. Who knows?

## A CHURCH IN POLITICS.

Ohio Methodists Are Uniting For Political Action.

### WILL TRY TO ELECT LEGISLATORS

Who Will Fight the Saloons—An Important Circular Issued and Signed by the Presiding Elders—Special Services To Be Held in Churches.

CLEVELAND, Aug. 24.—An important circular signed by every presiding elder of the Methodist church in Ohio, has been sent to the members of that denomination throughout the state. The circular states that "special services" will be called for by the elders in this connection in every Methodist church in Ohio.

### AN EXAMINER IN CHARGE.

Surprise Over the Failure of the National Bank at Franklin, O.

WASHINGTON, Aug. 24.—Comptroller Eckels has received a telegram from the cashier of the First National bank of Franklin, O., announcing that the bank has closed its doors, and asking to place some one in charge of its affairs. Bank Examiner Madison Betts was immediately instructed to proceed to Franklin and assume charge. No statement of assets and liabilities has yet reached the treasury department.

A Franklin special says: The community is astonished by the closing of the First National bank. The bank was organized in 1896, and has always had the full confidence of the community. The cause of suspension is stated to be a falling off in deposits, and the holding of discounted paper that will not mature in time to meet obligations. The president is C. M. Anderson and Cashier W. A. Boynton. It has a capital stock of \$100,000 and its statement showed a surplus of \$20,000, and undivided profits of \$35,000. It is the general impression that depositors will be paid in full, as the assets are largely in excess of liabilities. The deposits are said to be \$100,000.

## EUSTIS MAKES A MOVE.

A Response Regarding Waller Expected From France In a Few Days.

WASHINGTON, Aug. 24.—Officials of the state department are gratified to learn that Ambassador Eustis has made a move in the matter of Waller, and has carried out a portion of the instructions which have been sent him. The department has felt that it's efforts in this case have not been as ably seconded at Paris as they might have been, and Ambassador Eustis explains in his dispatch that the delay has been due to the absence of the minister of foreign affairs. The department believes that within a few days the French government will make some response to the requests made for the papers in the case of Mr. Waller. It is recognized at the department that the French government is not only slow, but that the French people are inclined to be nettled at the course pursued by the Americans, as shown in the resentment felt, because the commander of the Castine had failed to salute the French at Tamatave.

It is thought that much may be made of this incident by the French in order to still further delay the settlement of the Waller case, but it is probable that the United States authorities will not allow the two things to be coupled, but will insist that the Waller case must be considered solely on its own merits. The United States has not recognized the French protectorate over Madagascar, nor has it refused recognition. Consul Wetter, who is at Tamatave, is only acting consul in one sense, as the United States has never applied for nor received an exequatur from him. In advising the commander of the Castine not to recognize or salute the French the department presumes that Mr. Wetter has taken the right course, and knows what he is about, and will act upon that assumption until something to the contrary is learned.

## A SHRINKAGE IN TRADE

Volume of Business Smaller, as Is Usual In August.

## ACTIVITY AMONG INDUSTRIES.

Immense Orders Placed Some Weeks or Months Ago Cause a Rush—Price of Wheat Falls—The Wool Sales—Falls for the Week.

NEW YORK, Aug. 24.—R. G. Dun's Weekly Review of Trade issued today says: The volume of business in the country is smaller than in July, but the shrinkage seems rather larger than usual because transactions in July were somewhat inflated for that month. Some industries are doing more than before in August, and the prospects for fall trade is good in others, although much depends on the crops, and the outcome is less clear than speculation on either side are disposed to admit. Industrial troubles have not entirely ceased, but during the past week have become much less threatening.

The price of wheat has fallen 3 1/2 cents during the week, recovering a fraction on Thursday, in spite of all efforts to hold back supplies from farms and to encourage buying. Wheat is not to go abroad freely at present prices, but Atlantic exports, flour included, have been only 1,352,602 bushels for the week, against 2,694,764 last year, and for four weeks only 4,348,632 bushels against 10,937,447 last year. Impressive stories of short crops abroad have little weight in the presence of such a record, and the abatement of foreign purchases proves more effective than the withholding of wheat by western farmers. Naturally the 57 per cent of the Pacific coast still goes forward freely in place of the Atlantic supplies. Corn has also declined 1/2 cent, while pork and lard, with customary inconsistency, rise a shade.

It is a relief to turn to the great industries, in which the enormous orders placed some weeks or months ago show phenomenal activity for the season. In iron, notwithstanding some business because the output has greatly increased, heavy purchases by leading companies have advanced the price of Bessemer 60 cents, and a new combination has raised galvanized sheet iron to \$1.80, while combinations in wire forming in wire rods and common wire, and advance in prices is expected. Other prices are unchanged, and the new orders for iron and steel products are not at present large.

Sales of wool are again smaller than in 1892, and for the month thus far have been 16,847,300 pounds, of which 121,900 pounds were domestic, against 1,072,950 last year, of which 17,105,900 were domestic, and 23,961,400 in the same weeks of 1892, of which 17,105,900 were domestic. But the speculative buyers still hold prices very stiffly, and are supported by the strength in foreign markets. No marked change appears in demand for woolen goods, but there is increasing apprehension shown by agents regarding the extensive sales of foreign wools.

Failures for the week were 222 in the United States, against 234 last year, and 43 in Canada, against 33 last year.

A Spanish Paper Wrought Up Over the New York Gatherings.

MADRID, Aug. 24.—In regard to the news that Estrada and other Cuban insurgent leaders are allowed to hold a meeting in a Forester hall "with the flag of the Cuban republic flying alongside the stars and stripes, calumniating Spain, her army and Cuba, collecting money and recruiting men for rebellion," as announced in a dispatch received here. The impartial says:

"The government of America and its representatives may think as they like of this mode of understanding that neutrality to which they are bound; but, outside of them, there is no man who supports fair play who will not censure the conduct of the government of the United States. If they continue to authorize such meetings, in which Spain and her army are insulted and funds collected for expeditions against us, our course is clear and Europe shall be made acquainted with how the United States understand their international obligations. Deeds and not words, acts and not promises, are what we want. Let us sacrifice everything rather than the honor of our country."

## AN INSULT BY CHINA

The Massacre Investigators Are Virtually Prisoners.

## U. S. MARINES MAY BE LANDED.

Commander Newell of the U. S. Cruiser Detroit, Consults With U. S. Consul Hixson Concerning Such Action—Many China Converts Butchered.

LONDON, Aug. 24.—A special dispatch from Shanghai says that the members of the commission which recently went to Foo-chow for Ceng-Tu in order to investigate the recent massacre of missionaries there are virtually prisoners, and that Commander Newell of the United States cruiser Detroit has gone to Cheng-Tu to consult with Mr. J. C. Hixson, the United States consul at Foo-chow, who is the leading member of the commission, about the landing of marines for his protection and for the protection of the other members of the commission.

Many Chinese converts were butchered when the American mission outside Foo-chow was attacked and the chapel and school wrecked by an infuriated mob early during the morning of August 22.

The Chinese officials are jubilant at the defeats of the American and British consuls to obtain an open inquiry into the massacres. It is also said that the delay is giving the Chinese time to prepare a defense for the prisoners.

A Washington special says: It is said here that Ku-Cheng meant wherever Cheng-Tu is used in the London dispatch, as Cheng-Tu is the scene of the June riots, and is 1,400 miles from Foo-chow. Naval officials, though without information themselves, are inclined to discredit the information in the dispatch. Acting Secretary McAdoo said it was observed that dispatches of this character came by way of London, while another high naval officer said that there was an evident intention on the part of Great Britain in the whole Ku-Cheng affair to get the United States government to pull chestnuts out of the fire, and pointed to the fact that there did not seem to be any anxiety on the part of Great Britain to land troops, or to be in undue haste to force an explanation.

The navy department thought that if Commander Newell had gone on any such mission the department would have been notified. It was also said that marines are scarcely ever landed at the request of a consul, especially when there is a minister in the country. However should there be trouble of the kind indicated the United States has a strong force in Asiatic waters. We have seven ships there, some of them good cruisers, our fleet including the Baltimore (flagship), the Charleston, Detroit, Yorktown, Machias, Monocacy and Concord. The last named four are not very formidable, though good fighting ships. The new cruiser Olympia will leave for the Asiatic station in a very short time, as she is now being coaled at San Francisco.

Freight traffic over the Cleveland and Pittsburg has been unusually heavy the past few days, and is still more than holding its own. Freight train No. 123 the other night consisted of seven sections.

Wellsville is having almost as much trouble obtaining a street sweeper as Liverpool. It is overdue, and has not yet come. Wellsville's sweeper has been used before, and the suspicion is abroad that it is being repaired before they deliver it.

The remains of the late Jack Everson were buried in Wellsville this afternoon, a large concourse of sorrowing friends and relatives being present. A number from this city were there. The flowers were many and beautiful, showing the high regard in which the unfortunate young man was held.

Doctor Ogden today received the announcement of the Cincinnati medical college from which he graduated 18 years ago, and the neatly printed card reminded him that in all those years he has never seen one of the merry crowd of youngsters who left the school on the same day. They are scattered all over the country.

The wind which came up the valley this morning was traveling with race horse speed, and had things all its own way for a time. Corn was blown down, and branches were blown from trees in some parts of the city. Great clouds of dust filled the streets blinding pedestrians and ruining goods in business houses. It lasted for an hour, and made a most disagreeable morning.

When the snagboat was at work blowing up obstructions in the river opposite the glass works the dynamite had a deadening effect upon the fish, and many floated dead upon the river. Crowds of people in boats picked up the dead fish expecting to find them the best, but there were few bass among them. Suckers and carp were there in abundance, but the more palatable fish were nowhere to be seen.

The river is lower at present than at any time this season, and bare spots are seen where they have not appeared for several years. There is but little water flowing into the Allegheny or Monongahela, and the streams this side of the Davis island dam are as low as they have been for years. The question of a rise in August is answered, the river men say, and they are now pinning all their faith to September, with many sceptics among them.

The three-year-old son of John Rapp, West End, sustained a painful accident in Pittsburgh yesterday that will keep him sore in body and disturbed in mind for days to come. He was playing on a high fence when he lost his balance and fell to the ground where a pile of stone made anything but a soft spot for landing. His face was painfully crushed, and his nose broken. Mrs. Rapp brought the injured child home last night, and he is getting along as well as could be expected.

Among the most delightful evening outings of the summer was the dancing party of the Columbian club at the park last night. The guests numbered 50, and the music was Wolf's best production. Among those present were a number of people from Wellsville, including Miss James and her guest, Miss Lawler, of Dennison, Miss Caughey, of Beaver, Miss Brown, of Allegheny, and Clarence Stewart, of Benvenue, were also present. The happy party returned to the city on a special car provided by Superintendent Andrews at midnight.

A farmer and his wife who have been visiting in this city from Carroll county have passed many milestones in life, and this is the largest city they have been in. Until they came here a few weeks ago they were never out of the county, and never saw a railroad, although they have lived within 20 miles of one. They never before looked upon a river until they saw the Ohio at Yellow creek, and did not know a trolley car by sight. They are intelligent and educated, and have read much, but their practical experience in cities has been small.

## WE DON'T GET THE CUP

The Ceramic Cyclers Are Sadly Disappointed.

SOME VERY PASTY DIAMONDS

The Referee Changed His Decision, and Gave the Trophy to Westmoreland—Iron May See For the Prize He Won As Others Are Doing.

After long waiting and no little correspondence it has been decided that the C. C. C. will not get the silver cup won by Trappe, Hale and Irons at the Ellsworth races in Pittsburgh.

When T. F. Miller, the referee, decided that the man who dropped back a quarter of a mile was out of the race he was wrong, and a glance through the rules has convinced him of his error. Westmoreland objected to the decision, and he was compelled to reinstate the rider he had thrown out. As he had just 11 points and the other man still in the race had been piling up points until he had reached 29, the judge added the two giving them 40 points and the race. Our boys made 34, and doubtless would have run the number higher had they known the points they imagined thrown out would be considered. The referee has a right to decide as he did, but he has no right to consider another protest entered by the Beaver Valley cyclers regarding the entry of our team for they had no authority to lodge a remonstrance, and the Ellsworth club should have known these things before they took the entry fees. That is why they have entry blanks.

Another phase of the matter which rouses the ire of the team is the prize won by Irons for what splendid work he did. It was advertised far and wide as a diamond of value, but when the thing was investigated it was found to be little better than paste. In fact, all the diamonds given at the meet were valued at about \$9 a dozen. Irons has been advised by parties in Pittsburgh to sue for the advertised amount, of the prize, and will likely do so. The meet was so shaky in this respect that the club giving it are roundly denounced here and in Pittsburgh.

**PORTER WON.**

It Was a Good Race Over a Good Road.

The road race of the Audubon club from Smith's Ferry last evening to this city was a splendid contest, and when it was over John Porter had the medal and his choice of the prizes.

Porter, McKinney, Porter and Risinger started from the scratch at Smith's Ferry in a bunch, and got away in a hurry. They rode hard for a few hundred feet together, and then John Porter took the lead keeping it until the East End was reached when Risinger began to push him hard. It was a pretty race through the streets, and when Porter reached the curve near the river Risinger was so close that he prepared to pass him. Both wanted the same track, and there was a spill, Risinger falling hard. His wheel was smashed, and he had to look to a bystander for another, but Porter quickly gathered himself together, and spinning down the road after Bobby Jewell, who was pacing them, passed up Broadway amid the plaudits of the multitude, and won in 17:38.

Meantime McKinney had been chasing Risinger, and when they turned into Broadway they were only a short distance apart. As Risinger got off his wheel at Third street to walk the hill McKinney gained and they were close together when they started up the steep grade. Each made a mighty spurt on foot, but Risinger was in the lead, and mounting on top of the hill won out with a few seconds to spare. A large crowd saw the finish, and cheered on the riders. Tom Porter finding that he could not win loosed along the way, but finished in good time.

John Porter's time of 17:38 was followed by Risinger's 18 flat; McKinney, 18:05, and Tom Porter, 20:03. The distance was estimated at five miles. The winner took a medal, which he must defend again, and a carpet sweeper. Risinger got the smoking set, and Tom Porter got a bottle of catchup by way of a joke. Tom struck a stone near the Dry Run school house, his handle bars turned and he ran clear over the fence and into the school house, turned a somersault and lit on his feet. The winner lost a pedal and after he tied it on with a string hunted about in the dust for a toe clip.

Another race may be looked for some.

**THEY KICKED,**

And Would Not Play Ball With the East End Gym.

The game between the East End Gym and the Empire team ended in the fourth inning yesterday because the Empire nine kicked against the kind of ball in use. The ball was of the proper kind, but the score was 9 to 7 in favor of the Empire team, and they wanted an excuse to quit. The

management of the East End club had ordered supper for the visitors, but promptly countermanded it. This is the second game the East End club has played with the Empire nine, and will likely be the last, although they had arranged for a series of three games to decide the ability of the respective nines.

**NO LIQUOR ON BOARD.**

Captain Anshutz Has Strict Regulations For the Louisville Trip.

Captain Anshutz, who proposes to take the Grand Army boys to the Louisville encampment next month, will not allow a drop of liquor on the boat, nor will he permit one questionable character to join the happy party. In his long experience on the river the captain has always carried a full crew of competent officers and men, and he is not going to break that record now. He always keeps his word, and when he says there will be no liquor or questionable characters he means every word of it. Already he has received inquiries from Liverpool people, and expects to have some of them join his party. The trip by the river is so much more enjoyable than by rail that he thinks many will join him. The appointments of the boat are perfect, and the genial captain insures all who ride with him a good time.

## A FIGHT WITH BANDITS.

One Officer and One Robber Shot—The Gang Surrounded.

ARDMORE, I. T., Aug. 24.—An encounter between the noted Christian gang who broke jail at Oklahoma City, and have since added to their number a posse of United States marshals, in charge of Ben Goode, has occurred six miles west of Purcell, in which United States Marshal J. Hoeker was shot and mortally wounded, and Bob Christian shot.

How serious his injuries are cannot be determined, as when his horse was cut down from under him and he was shot by Deputy Hoeker, his brother, Bill Christian, rode out of a thicket and placing his wounded brother on his horse ahead of him, the two made good time and escaped. Hoeker was shot by Bill Christian. After Hoeker received his wounds the other marshals turned their attention to the wounded officers and the outlaws saw a chance and they at once broke cover and fled. A strong posse now surrounds the gang near Purcell.

**In Trouble Over Another Juror.**

SAN FRANCISCO, Aug. 24.—The prosecution in the Durrant case is in fresh trouble over the business connections of Juror Nathan Crocker, who owns a rock quarry and has been endeavoring to induce the board of supervisors to use material for concrete work from his quarry. Attorney Dickinson of Durrant's counsel is also attorney for the majority in the board of supervisors, and the prosecution fears this will detract from Crocker's usefulness as a juror.

**The A. R. U. After Huntington.**

SAN FRANCISCO, Aug. 24.—According to the A. R. U. members and their friends, C. P. Huntington will be arrested should he come here. It is contended that the charge against the president of the Southern Pacific was dismissed at the instance of United States District Attorney Foote, and was not done by the United States District Judge Morrow. Hence, it is held that Huntington can still be arrested here.

**Throw Satchels Out the Window.**

ROCHESTER, Aug. 24.—A man giving the name of Henry Lindinger, of Chicago, bound for New York, apparently about 30 years of age, has been taken in custody by the conductor of a West Shore train and turned over to the police here. He threw his pocketbook and satchel through a car window and grabbed the satchels of several other passengers and treated them in a like manner.

**Port Royal Dock Has Defects.**

WASHINGTON, Aug. 24.—The board designated to examine the drydock at Port Royal, S. C., has reported to the navy department that the dock has not proven satisfactory, and recommend that it be not accepted by the department. The contractor will be given an opportunity to have it come up to the requirements.

**The Biggest Corn Crop Yet.**

NEW YORK, Aug. 24.—According to the statistics of the Produce Exchange the corn acreage is 82,000,000, and the indicated crop is not less than 2,425,000,000 bushels, the biggest corn crop in the history of the country. The increase over the great crop of 1889 will be 318,108,000 bushels, if the exchange figures prove correct.

**Navy Department Declines the Offer.**

WASHINGTON, Aug. 24.—The offer of the Union Iron Works company of San Francisco to furnish 60 men to speed the Olympia across the Pacific will not be accepted by the navy department, and the Olympia will make its trip to Japan at the ordinary moderate pace usual to other vessels of the navy.

**Abe Small Guilty of Murder.**

SAVANNAH, Ga., Aug. 24.—The trial of Abe Small, the negro who shot Policeman Neves, and who was recently brought back from Baltimore, has resulted in a verdict of guilty of murder. The case has attracted unusual attention.

A POWERFUL CLAIRVOYANT.  
Prof. Earl Byron, the Greatest Life Reader of the Age, and the Most Learned Man in Occult Science Now in This Country, is at Mrs. Dailey's Residence, 267 West Market Street.

Where he will receive callers for a few days. Be it understood here, that the professor is not an impostor, but a man truly gifted with the power to cast the search light of truth and understanding on events which lie hidden in the mystic future. He is not here to dupe the public, nor to win cheap laurels as a clever fortune teller, but he is here to work—

"For the cause that needs assistance,  
For the wrongs that need resistance,  
For the future in the distance,  
And the good that he can do."

Earl Byron has for nine years, stood before the tribunal of that exacting merciless judge, "public opinion," and has been weighed in the balance, and found not wanting.

Life is a stern reality and very enigmatical, but through the understanding of its strange philosophy, comes success, happiness and prosperity.

A visit to Professor Byron may be the means of saving you many a dollar, many a mistake, many a sigh, and the saddest of all sad words, "it might have been." If your domestic happiness is marred there must be a reason for it, and also a remedy. If you are unsuccessful in business, remember the error is yours, and it is your duty to correct it. Young men and women starting in life should not fail to get the professor's advice, and bear in mind the motto, "Be sure you are right, and then go ahead." He can tell your name, age, occupation, etc., at a single glance. Lost, hidden or stolen property recovered and no money taken until it is in the owner's hands. He can tell you how you can win the love or friendship of any man or woman upon whom you set your heart. He gives the name, age, occupation, nationality, disposition and financial standing of your future husband or wife and date of marriage. He advises on law, love, business, marriage, divorce and all affairs of life with a higher than human power. Do not wait until he is gone, but come now while you have an opportunity to see him. Remember he guarantees satisfaction to all or no money taken. Your future to this gifted young man is as an open book. He tells you your trouble; how it came about, and the way out of it. He tells just for what you came to him, and advises accordingly without you speaking a word concerning the purpose of your visit. I have rented ground floor parlors at Mrs. Dailey's, 267 West Market street, East Liverpool, Ohio. Hours 9 a. m. to 10 p. m., city time. Call soon as my time is limited. Charges reasonable.
